Monthly Recipe

Pasta Primavera

INGREDIENTS:

- | | |
|--|---|
| 1 bunch fresh basil | 2 jalapeno peppers, seeded & diced |
| 3 cups chicken broth, divided | 2 pinches salt |
| 1/2 cup olive oil | 2 zucchinis, diced |
| 2 cloves garlic | 1 cup chopped sugar snap peas |
| 1 lb fettuccine pasta | 1/2 shelled English peas |
| 2 tablespoons olive oil | 1 bunch asparagus, stalks diced, tips whole |
| 1 large leek, white and light
green parts only, chopped | 1/2 cup grated parmesan cheese |
| 1 bunch green onions, chopped | |

(directions on next page)

Monthly Recipe

Pasta Primavera (cont'd)

1. Fill a large pot with lightly salted water and bring to a rolling boil. Hold basil bunch by the stems and dip basil leaves in the water until bright green, about 2 seconds. Immediately immerse the basil in ice water for several minutes until cold to stop the cooking process. Once the basil is cold, drain well. Remove basil leaves from stems and discard stems.
2. Blend basil leaves, 1 cup chicken broth, 1/2 cup olive oil, and garlic together in a blender until smooth.
3. Stir fettuccine into the same boiling water, bring back to a boil, and cook pasta over medium heat until cooked through but still firm to the bite (about 8 min)
4. Heat remaining 2 tablespoons olive oil in a large saucepan over medium heat. Cook and stir leek and green onion until softened, about 5 min. Add jalapeno and salt; cook and stir until jalapeno is soft, about 5 min.
5. Increase heat to medium-high. Stir 2 cups chicken broth, zucchini, sugar snap peas and English peas into jalapeno mixture; bring to a simmer and cook for 5 minutes. Add asparagus and continue cooking until asparagus is soft, about 3 minutes more.
6. Pour 1/4 cup basil/garlic mixture into zucchini mixture and cook and stir until heated through, about 1 minute. Remove from heat.
7. Place pasta in a large bowl; pour zucchini mixture over pasta and pour remaining basil-garlic mixture over the zucchini mixture. Spread parmesan cheese over the top. Toss mixture briefly to combine and tightly wrap bowl with aluminum foil. Let stand until pasta and vegetables soak up most of the juices and oil, about 5 minutes. Toss again and serve with crusty bread.

Lawn and Garden

Life (Lawn & Garden) Style

By Alexandria Masters

Spring is nature's way of saying, "Let's party!"

Having a beautiful yard in the summer requires some preparation work in the spring. A pre-season check is a great idea this time of the year. Are your garden tools ready for the busy gardening season? Check them and fix, sharpen, or replace them as necessary. Take a stroll around your yard. Did critters damage any plants? Do any need to be repaired or replaced? Start a list for your garden center. Flip through your garden journal and start a list of "must do" projects. By the time your list is done, spring will be here! Here's the good news: If all of these gardening chores are completed in the spring, then you will be well on your way to beautiful landscaping that will be the talk of the neighborhood. By acting now, you'll save yourself time and back-breaking tasks during the hot summer months.

What you should be doing in the month of March

Home: Here are some great tips for your houseplants. Turn your houseplants a quarter turn each week to make sure all sides of the plant receive adequate light, and to keep the shape of the plant balanced. Mist or spray your houseplants to clean away the winter's dust, prevent Spider Mites and add a little humidity. Remain vigilant in watching for insects and pests. It is much easier to win a 'bug war' if you are aware of the infestation in its early stages.

Lawn: Do not over-fertilize! Many homeowners tend to throw down too much fertilizer at the first sign of green grass growth. In reality, the best thing to do is to apply a light amount of fertilizer in early spring, and then apply a larger dose a bit later in the season, after the initial growth rush.

Garden: Starting or returning to your garden tending can not only add beauty to the outside of your home, but also brings color to the world, helps feed bees which are currently on the decline, and decrease carbon dioxide levels in the atmosphere. Making your garden a place that is comfortable, beautiful and eco-friendly makes for a happy world, a happy home, and a happy you. It's a must add to your spring to do list!

And... Most importantly, make your priority resolution to live in the moment. Start a diary. Read a book. Travel. What hiking trails have you yet to explore? Are there any local restaurants you have yet to experience? Put it on your spring to do list. Reach out to a friend, set a date, and just spend some time doing what really makes your life enjoyable. You deserve it.

WE'LL GIVE YOU THE TIPS, TRICKS, AND TRENDS YOU'RE LOOKING FOR, RIGHT HERE IN YOUR NEIGHBORHOOD NEWSLETTER TO MAKE YOUR LANDSCAPING DREAMS YOUR NEW REALITY!
